

To manage the district's program and affairs so that:

1. Students continue their studies through graduation from junior and senior high school.
2. Upon graduation, students will have reached or surpassed the district's achievement standards, and in addition, will have adequate knowledge and skills to:
 - 2.1 continue their formal education, or
 - 2.2 enter a productive occupation
3. Students develop positive attitudes toward self, others, school, and education.
4. The community feels the district is performing satisfactorily.
5. The district's employees feel the district is a good place to work.
6. The physical assets of the district are adequately maintained.
7. The district's financial resources are properly allocated and controlled.
