

1.0 Membership

The Board of Trustees encourages administrative and supervisory employees of the district to participate in civic, service club and professional organizations which provide an opportunity for community or professional service which reflects, in a positive manner, upon the individual employee and the Anaheim Union High School District.

2.0 Acceptance to Office in Organizations

Prior to accepting elective or appointive offices or committee memberships, administrative and supervisory employees will arrange or modify their work year, with the approval of their immediate supervisor, so that the functions of the offices can be accomplished on non-work days.
